SUMMARY

Full-Stack Web Developer proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js), with expertise in building scalable, secure, and responsive web applications. Skilled in JavaScript, RESTful API development, JWT authentication, and real-time features using Socket.io. Adept at Agile methodologies and Git workflows, with a strong portfolio of deployed projects. Passionate about solving complex problems and delivering user-focused solutions.

PROJECTS

MERN Real-Time Chat Application

https://mern-realtime-chat-4l5r.onrender.com/

🔗 https://github.com/Ahsanul-Mostakin/mern-realtime-chat

- Developed a real-time chat application with secure user authentication and live messaging.
- Implemented Socket.io for real-time communication and MongoDB for persistent data storage
- Designed a responsive UI with Tailwind CSS, ensuring seamless user experience across devices.

MERN Authentication App

https://auth-frontend-ipwt.onrender.com/

🔗 https://github.com/Ahsanul-Mostakin/mern-authentication-app

- Built a full-stack authentication system with secure login, registration, and CRUD operations.
- Utilized JWT for secure user authentication and authorization.
- Deployed the application on Render, ensuring scalability and accessibility.

MERN Notes App

https://mern-notes-app-4de5.onrender.com/

🔗 https://github.com/Ahsanul-Mostakin/mern-notes-app

- Created a full-stack notes application with user-specific note creation, editing, and deletion.
- Integrated JWT for secure access and MongoDB for efficient data management.
- Styled with Tailwind CSS for a modern, responsive interface.
